Board & sanctioned by us do not at all appear in the D P W budget & vice versa.— Hence state of things must be prevented, & this can only be done by one or the other of the following methods.— Viz.

1 The D P W should be told not to insert in their budgets works or sums not proposed or sanctioned by the D Board in the D Fund budgets.

Or

works undertaken, whether
from the Fund, or Board
should come before them
before they are sanctioned,
(this right that it claims
to do) I shall send
every Item of the

approval before issuing
but it seems to me
to be right in principle,
that the Fund should
not interfere in the Budget
any sum or work

the Board or not
approved of by the
Person of the Fund
Budget.

I have asked Dr
Cowie to send me the
Fd Budgets before October
every year, & I shall
see that the Items are
passed early.

My own opinion
is that the Fund
need not at all enter in the

course must be adopted.
I shall take the Dt Centre not to send up their Budgets of Dt Funds till the P. works Budget is passed & then to insert any such works as are sanctioned in the D.W. Budgets. & I shall confine any remarks or to Civil charges. In the former case, the D.W must be told to insert in their Budgets any such works & sums as have been inserted in the Dt Fund Budget & sanctioned.

Recently I issued an order that this course should be adopted, but if I am unwilling to do so, I shall cancel the order. If the Darwan considers

be considered in a

SIR.

In order No. 4117-26 on Government Proceedings (Financial) dated 7th July 1891, it is notified in para 4 that Government do not understand on what authority the Public Works Department have inserted their figures in the Public Works District Fund works budget.—

0010001

2.— The procedure adopted in allocating funds for District Fund works has been based on Chief Commissioner's Order No. 4436-7 of 1st November 1880. That order was cancelled by order No. 2669-80-86 of 25th July 1884, but the instructions were re-iterated that in future years, the grant for each District must

must as a rule be limited to the Estimated Annual Income. —

3. — The particulars as regards assets are taken from the Statements furnished by the Comptroller, and those as regards works from copies of the District Fund Budgets furnished by the Executive Engineers, and modified in this Office, in cases it is found necessary to do so, to accord with the grants as above fixed and to meet the requirements of works in progress. Such has been the arrangement all along following recognised and accepted in the various orders of Government on the Public Works Budgets, though now apparently taken exception to. —

4. — You are doubtless aware that the Public Works Budget has to be submitted earlier than the dates on which orders on the District Fund Budgets are received by me. Under the circumstances I do not see what other procedure can be adopted, and after all, as the Public Works Budget criticised is but the Preliminary one, the figures of the

Local

Local Boards can be adopted in the Final Budget, if Government pass them in preference to the Comptroller's. The differences at worst can be but slight.—

5.— = With reference to para 5, I would observe that as orders on the District Fund Budgets do not reach me as a rule until May, the arrange= =ment would be wholly impracticable.

Subject.

Explaining how the figures in question have been inserted in the Public Works District Fund works Budget.

Send Mem to the Dewan for orders.

I send a memo on the subject to the Dewan.

There is no use of my perusing the Budgets of D[illegible] funds, if the figures therein considered are not to be adopted in the D.P.W. Budget.

If the Dr. Comrs send their D[illegible] Budgets punctually before the 30 Oct^r as directed, I can easily dispose of them before the end of Nov^r & the figures can be inserted in the D.P. final Budget.

I feel great difficulty in getting papers in time. Some strict arrangement must be made.
